

Specifications

Physical Properties

Uninsulated wire ferrules are made of electrolytically tin plated copper. Tin plating is carried out in accordance with ASTM B 33.

Tin Plated Copper

Maximum Operating Temperature: 302 °F (150 °C)
Tin Melting Point: 449.47 °F (231.93 °C)
Copper Melting Point: 1984.32 °F (1084.62 °C)
